SKILLS SUMMARY

- **Languages :** Python, Java, C++, JS, Typescript.
- **Frameworks :** React Js, Next Js , Spring Boot.
- **Databases :** OLTP (Cloudflare D1, MS SQL Server, MySQL, PostgreSQL, Oracle).
OLAP (Snowflake), NoSQL (MongoDB).
- **Coursework :** DSA, System Design, DBMS, Operating Systems.
- **Tools :** Power BI Desktop (DAX | Data modeling | Power Query), Power BI Service, Advanced Excel, Smartsheet, SharePoint, Jira, Postman, Dockers (Learning).
- **Soft Skills :** Quick Learner with Excellent Analytical, Strong communication & Problem Solving Skill.

WORK EXPERIENCE

INDICIA WORLDWIDE

Apr 2024 – Oct 2024

REPORTING ANALYST – INTERNSHIP

Mumbai, INDIA

- Part of the **Reporting team**, worked on building monthly reports for our clients.
- Taking active participation in the requirement gathering phase and providing suggestions and inputs.
- Worked on **large data sets** by fetching data from **Snowflakes (SQL)** & developed various kinds of reports like Production reports, Finance reports, HR reports and Sustainability reports using extensively **Advanced Excel, Smartsheet**.
- Created various Dashboards in Excel, Power BI Services and also using management tools like **JIRA & SharePoint** as in teamwork.
- Performed **ETL** operations on data in **Power Query** and worked on creating complex **DAX queries** and worked on Relationships & Schemas in **Data modeling**, implemented **VBA macros**

PROJECTS

CoTask - [Link](#)

- CoTasks is a collaborative task management application designed for managing, assigning, and tracking tasks for both teams and individual users.
- Architected a serverless backend using Hono on Cloudflare Workers, leveraging Cloudflare D1 and PostgreSQL for robust data management.
- Implemented a type-safe data access layer with Drizzle ORM to define and interact with a relational database schema
- Integrated Google OAuth to establish secure authentication and authorization, ensuring protection for user and team data.

EzzAlgo

- The DSA Webapp is an interactive educational platform designed to help users visualize and practice Data Structures and Algorithms.
- Utilized Spring Boot features, including Spring MVC and Spring Data JPA, to build a scalable and efficient backend architecture.
- Devised RESTful APIs using Spring MVC to ensure clear and robust communication between the client and server
- Integrated the D3.js library to render complex, interactive, and animated visualizations of core DSA concepts.

CakeSmart

- Created a desktop application for a cake shop to help manage records, customer orders, and cake inventory digitally.
- Built the application in Python, creating a graphical interface with PyQt5 and using MongoDB to store all cake, customer, and order data.

EDUCATION

St Francis Institute of Technology

Jul 2022 - Jun 2026

B.E. Computer Engineering, CGPA - 8.83

Mumbai, INDIA

Shri T P Bhatia College of Science

Jul 2020 - Jun 2022

12th HSC | PCM, Percentage - 75.83

Mumbai, INDIA

St George High School

Jul 2019 – Jun 2020

10th SSC | State Board, Percentage - 91.00

Mumbai, INDIA
